Moving Forward-Together

Just four weeks ago, we were offering vital support, guidance and connection to our kids in Trenton. **As I write this, everything is upside-down, and UPT is facing an emergency.**

Our schools, our offices and most importantly, our access to the kids is shut down at a time when they need us most. [UPT staff is rapidly adjusting so that our programs carry on...](#)but it's going to take more than plans to ensure this happens.

Please make a gift today so we can continue to be there for our kids and their families.

GIVE A GIFT TO MOVE UPT FORWARD

So much is uncertain, but one thing we know for sure is that the families we serve will be the hardest hit of all. They struggle to pay rent and to feed their children on a regular basis, and without exaggeration, it will get worse, which makes it more important than ever UPT is there for them.

Just this morning, we received a heartbreaking call from one of our StreetLeaders, who told us that she and her family of six had no food in the house. We scrambled to order food online, and get out e-cards so the family can get some supplies. This is just the beginning of a wave of need in Trenton and our community.

We usually raise over \$100,000 in the last few months of our fiscal year, which is desperately needed even in the best of times. Social Distancing protocols have forced the cancellation of the Spring Gala and many of the other ways that support is received. These health protocols put UPT and its mission in jeopardy.

Will you make a gift to make sure we can continue serve our kids and families?

This global health challenge has changed the way society is working. We can't do anything about the past, but we can decide how we move forward-together. *All of us are connected, and we believe the unalterable love of God is all powerful and have faith that, together, we can do what we cannot do alone.*

GIVE A GIFT TO MOVE UPT FORWARD
